Step 5: Think long-term. Phew! The rush to get the nursery ready in time was real... but we made it. The idea for this space was simple: calm and gender-neutral, with furniture that can either grow up with baby, be re-used for baby #2, or move elsewhere in the house later on.

Starting afresh needed fresh thinking: about who she was then, and who she is now. What she wanted to keep and what she was ready to leave behind. Her new apartment, its colours and its furniture are a beautiful summary of this new life. But it's how she lives – her passions, her dreams and new routines – that make this story truly complete.

A first step to better sleep

Is there a secret recipe for better sleep? Well, there is a recipe but it's not secret. It's about clean air, quiet, light and temperature - and of course, about being as comfortable as can be. So something as simple as a new pillow can actually make a big difference.

An ergonomic pillow is specially designed for the way you sleep. And, as a waste-reducing bonus, its memory foam is leftover material from mattress production.

Three basics of better lighting

Sometimes you walk into a room that just “feels” great, complete and welcoming. One reason why might surprise you: multiple sources of light. This helps the room work better for you but also helps to move your eye around the space, making it more pleasant to be in.

General lighting

Ceiling lamps and spotlights give a good overview of the entire room. It's extra nice when they are dimmable, so you can always get the mood that feels right.

Functional lighting

The lamp with a mission. This concentrated, direct light helps you focus on specific tasks like reading, working or cooking.

A dream kitchen is all in the details

Forms and finishes

For a traditional kitchen, consider handles and knobs with rounded forms in finishes such as chrome or brass.

A sink with style

This distinctive ceramic sink is an instant style boost, enhancing the overall classic design. The tap also has a matching ceramic detail.

On the table, too

You can round out the look with flatware that has decorative details and porcelain or earthenware plates in neutral colours.

What's for dinner?

Stumped on what to cook? Sometimes – well, most of the time – we just want something easy, balanced and nutritious. A midweek meal can be fast when you start from frozen, and with our veggie balls, it'll definitely be delicious, too.

Skip the store tonight

Having meals in the freezer is always handy. These veggie balls are a treat for everyone, including vegetarians and vegans, and have a lower climate footprint than the traditional meatballs.

Guarantee

We want you to love the things you buy from us for a long time. Here's what's covered by our guarantee programme.

What is guaranteed?

The extent of the guarantee given for each product is described alongside each product

Duration of guarantee

Each guarantee lasts for the number of years stated against each product starting from the date of purchase.

What will IKEA do to correct the problem?

IKEA will examine the product and decide if it's covered under this guarantee. IKEA will then, at its choice, either repair the defective product or replace it with the same or a comparable product. In these cases, IKEA will be responsible for the cost of repairs, spare parts, labour and travel for repair staff that IKEA incurs, provided that the product is accessible for repair without IKEA incurring additional expenditure to gain access. This will not apply in cases where repair work has not been authorised by IKEA. Any defective parts removed in the course of repair work will become the property of IKEA. If the item is no longer sold by IKEA, IKEA will provide an appropriate replacement. IKEA will decide at its discretion, what will constitute an replacement.

Conditions for the guarantees

The guarantees are valid from the date of purchase at IKEA or date of delivery if later. The original purchase receipt is required as proof of purchase.

Exclusions

The guarantees do not apply to products that have been stored or assembled incorrectly, used inappropriately, abused, misused, altered, or cleaned with wrong cleaning methods or wrong cleaning products. The guarantees do not cover normal wear and tear, cuts or scratches, or damage caused by impacts or accidents. The guarantees do not apply if products have been placed outdoors or in a humid environment or if the products have been used for non-domestic purposes (unless otherwise stated). The guarantees do not cover consequential or incidental damages.

Care instructions

To be able to rely on this guarantee you need to follow the specific care instructions for every product. You can find all care instructions at the IKEA stores and on the IKEA website: [IKEA.sg](https://www.ikea.sg)

General legal rights

This guarantee gives you specific legal rights. It does not, in any way, affect the rights given to you by law. Items excluded from the IKEA free extended guarantees will still be covered by the rights given to you by law. You can obtain information about your legal rights from your local consumer associations.

How to reach us if you need service:

Contact your local IKEA store. You can find the address and phone number in the IKEA catalogue or at [IKEA.sg](https://www.ikea.sg). Save your sales receipt as proof of purchase. Proof of purchase is required for the guarantees to be valid. To find out more, pick up the guarantee booklets at your local store or visit [IKEA.sg/guarantees](https://www.ikea.sg/guarantees).

Healthy land, thriving communities

Women from Chhattisgarh India take their harvest to market. Tribal communities in Chhattisgarh depend on land which is increasingly degraded.

We believe farmers have the power to heal the planet while they feed the world.

Farming is one of the world's most important professions, yet the majority of smallholder farmers in East Africa and India are living in poverty. Environmental degradation and the loss of biodiversity are among the root causes.

What if we could transform barren land into rich, fertile ecosystems that support thriving communities?

The IKEA Foundation's partner Commonland is working in Central India to do just that. This exciting programme brings communities together to restore a 2,000-hectare degraded landscape. The regenerated land will help 1,000 smallholder farmers create thriving businesses and provide their communities with food, water, clean air and employment.

Rural communities can gain so much more than a place to grow crops. People develop a renewed sense of hope and purpose, they create more jobs, revitalise their environment and earn reliable incomes.

We all depend on agriculture. The IKEA Foundation is committed to helping people grow their way to a more secure future for their families and our planet.
